PROFESSIONAL SUMMARY

With over four years as a frontend web developer, I've specialized in WordPress customization and plugin integration, delivering responsive designs and high-performance websites. Proficient in HTML5, CSS3, and JavaScript, I manage domain setup, DNS configuration, and hosting seamlessly. My proactive problem-solving and dedication to security ensure timely project delivery and exceed client expectations. Experienced in collaborative teamwork, I excel in communication and driving digital innovation, poised to bring my technical skills and passion for frontend development to your team.
